# Message from the Mayor and Chief Executive Officer

On behalf of Maroondah City Council, we are pleased to present the proposed 2020/21 Budget to the Maroondah community.

Work on the proposed 2020/21 Budget was well underway when the COVID-19 pandemic was declared on 11 March by the World Health Organisation.

The impact of the Pandemic on Council has been profound. While Council has continued to provide the majority of its services during the various stages of the COVID-19 pandemic, the required closure of our leisure facilities, such as Karralyka, Aquanation, Aquahub, Ringwood and Dorset Golf, The Rings and Maroondah Nets resulted in a loss of \$10 million in user fees and a redirection of in

excess of \$5million of expenditure to COVID-19 response in the 2019/20 financial year.

As a consequence, the proposed Budget has been reviewed to take in to account the financial outcomes for 2019/20 and ongoing impacts for 2020/21 of the COVID-19 pandemic on Council's services, income and capital work projects, including a detailed review of the Long Term Financial Strategy.

Specifically, for the 2020/21 financial year, Council proposes to adapt its service delivery resulting in a \$7.43 million realignment of budget towards COVID-19 relief and recovery responses for the Maroondah community.

While we manage the COVID-19 impacts, Council continues to work towards the community's vision as outlined in *Maroondah 2040: Our Future Together*. The vision is the foundation from which Council shapes its long term plans for the municipality. Following extensive community and key stakeholder consultation this long term vision for the future of Maroondah was adopted in late 2014. Over the past 18 months it has undergone further consultation with our community to provide a revised vision that continues to reflect emerging needs and future opportunities. The community aspirations and priorities are grouped into eight broad outcome areas that provide the structure for the Maroondah City Council Plan 2017-2021 (Council Plan).

The Council Plan has been developed based on the community directions in Maroondah 2040 and a range of community consultation activities undertaken over recent months. The Council Plan sets the key directions and priority actions for the medium term to work towards the aspirations of the Maroondah community looking ahead to the year 2040. The community outcome areas (Strategic Objectives) and 65 priority actions (Major Initiatives and Initiatives) are detailed in Section 2 of this document.

The Maroondah City Council budget for 2020/21 links to the achievement of the Council Plan as part of an integrated planning framework. The 2020/21 budget outlines the provision of financial resources for the next 12 months and details how these resources will be applied to meet the actions and initiatives detailed in the Council Plan, as well as delivering more than 120 services and the extensive range of programs and activities that Council provides to the Maroondah community.

## Budget Highlights

The 2020/21 budget contains 65 initiatives, including 26 major initiatives, as identified in the Council Plan. These initiatives will contribute to the achievement of the four-year Council Plan key directions and ultimately the preferred outcome as outlined in Maroondah 2040.

Some initiatives include:

- Design and construct multi-level commuter carparks in Croydon; Ringwood; Heathmont; and Heatherdale station;
- Undertake a strategic review of shopping centres in Maroondah and develop a Community Shopping Centre Strategy;
- Design and construct sporting / multipurpose pavilion redevelopments at HE Parker Reserve, Silcock Reserve, Proclamation Park, Springfield Park and Ainslie Park;
- Establish a regional cricket hub at Jubilee Park sporting precinct;
- Complete the Lincoln Road upgrade, east of Dorset Road, Croydon;
- Implement the Greening the Greyfields project in partnership with stakeholders to facilitate a sustainable approach to urban redevelopment in identified residential precincts; and
- Undertake the staged redevelopment of the Croydon Community Precinct.

An extensive Capital Works Program of \$85.47 million will be undertaken in 2020/21. This capital investment includes funding of \$26.56 million from external grants; \$0.20 million from contributions; \$20.65 million from asset sales; and \$38.06 million from Council operations and cash holdings.

Highlights of the 2020/21 Capital Works Program include:

## The Rate Rise & Rate Capping

Councils have the obligation to levy rates and charges under the Local Government Act 1989 in order to fund and deliver essential community infrastructure and services. The rates Councils collect are a form of property tax. The value of each property is used as the basis for calculating what each property owner will pay.

Calculating how much each property owner pays in rates involves determining the total amount of rate revenue required and dividing this across the total value of all rateable properties to establish a rate in the dollar. The rate in the dollar is then applied against each individual property value to calculate how much each property owner pays.

All of Victoria's 79 councils have been operating under rate caps since 1 July 2016. Each year the Minister for Local Government sets a cap on rate increases based on that period's Consumer Price Index (CPI) and advice from the Essential Services Commission (ESC). The rate cap limits the total amount a council can increase its rates each year based on the amount it levied in the previous year.

The decision must be made by 31 December each year to apply to rates in the following financial year.

For the 2020/21 financial year, Council's rate rise has been capped at 2.0%.

The rate cap applies to the council's total rate revenue and not individual properties. In many cases, an individual rates bill may increase or decrease by more (or less) than the capped rise amount. This may happen because:

- the value of the property has increased or decreased in relation to the value of other properties in the council;
- other charges and levies that are not subject to the cap, such as the waste charge, has risen. The capped increases apply to the general rates only; and
- the amount of rates levied from properties of that type (residential, commercial or industrial) has changed through the council's application of differential rates.

Council recognises that in the COVID-19 pandemic environment that some members of the community may have difficulty paying their rates, and has a Financial Hardship Policy, which includes offering payment arrangements based on individual ratepayer circumstances.

Further information on Rates and Charges can be found in Section 6 Notes to financial statements within this document.

## Waste Management - Recycling

Over the last 30 years, recycling has been considered a critical service experienced by all and one that should be an expected service. As documented in the past two years, the recycling industry has been through some challenging moments and events that are disrupters on a global scale. These challenging events are still foreseeable into the future, however, Maroondah will be working towards a pathway that results in an efficient and resilient recycling system. Maroondah will continue to work closely with the State and Federal Governments to make inroads in the recycling sector. On the 6 March 2020, the State Government issued a paper and Policy to Transform Recycling in Victoria. It is a circular economy policy with a 10 year action plan. The State Government will look to invest more than \$300 million to help transform the recycling sector and reduce waste. Maroondah will look to align its 10 year waste strategy, with the State Government Policy and pending funding announcements, will look to undertaken such initiatives.

Additionally, Maroondah has also had to manage its recycling processing during times of great uncertainty, however, allthesame, ensure recycling lives strong in the municipality.

To ensure waste services and in particular recycling can continue, the charge for 2020/21, incorporating kerbside collection, green waste and recycling, will increase by just over 6% from the 2019/20 level. This increase in price, assists the municipality in maintaining its contractual relationship with its recycling contractor and ensure a reliable and environmentally friendly waste processing service is delivered.

## Other Challenges

In addition to the COVID-19 pandemic impacts on the proposed 2020/21 Budget, the Victorian Government cap on rates and the waste management challenges, Maroondah also faces a range of other challenges, which include:

- Funding the renewal of infrastructure and community assets in a COVID19 environment;
- Cost shifting from other levels of government;
- Technology and Opportunity - complex environments amongst emerging technologies; and
- Funding expectations of enhanced service provision.

This Proposed Budget has been developed at a difficult time in the history of the Maroondah community, however it has been set using a rigorous process of consultation and review and Council endorses it as a balanced, sustainable and responsible platform to ensure enhanced services, protection of Council's \$1.91 billion in net assets, the delivery of \$85.5 million extensive capital projects, an underlying surplus of \$1.3 million excluding extraordinary items, and a financially prudent future for our community.

# 1. Link to the Council Plan

This section describes how the Annual Budget links to the achievement of the Council Plan as part of Council's Integrated Planning Framework. This Framework guides the Council in identifying community needs and aspirations over the long term (Maroondah 2040 Community Vision), medium term (Council Plan 2017-2021) and short term (Service Delivery Plans and Annual Budget) and then holding itself accountable (Annual Report and Audited Statements).

## 1.1 Council Planning and Performance Framework

Council's strategic documents are linked to an Integrated Planning Framework. Council's Integrated Planning Framework seeks to ensure Council's activities and financial resources are aligned in order to meet the aspirations, needs and expectations of the Maroondah community. The framework ensures a clear linkage between community needs and aspirations, vision, strategies, policies and service delivery of Council.

Figure 1: Maroondah City Council's Integrated Planning Framework

This framework is underpinned by the shared long term community vision outlined in *Maroondah 2040: Our Future Together*, which was developed and then adopted in 2014 in conjunction with the community.

The community aspirations and priorities for the future of Maroondah have been grouped into eight broad outcome areas that provide the structure for the Council Plan 2017-2021 (Council Plan). These community outcome areas comprise:

- A safe, healthy and active community
- A prosperous and learning community
- A vibrant and culturally rich community
- A clean, green and sustainable community
- An accessible and connected community
- An attractive, thriving and well-built community
- An inclusive and diverse community
- A well governed and empowered community

The strategic direction through Maroondah 2040, the Council Plan, and the Long Term Financial Strategy has resulted in detailed service delivery plans across each of Council's service areas. These plans are reviewed annually to ensure alignment with community needs and expectations.

The framework both feeds into and is supported by a number of other key planning documents – in particular Council's annual budget, legislated plans and strategies and a broad range of supporting strategies and policies adopted by Council.

To ensure Council has the capacity to work towards the achievement of the Maroondah 2040 Community Vision, a Long Term Financial Strategy has been prepared to guide the financial resources of Council over the next 10 years. This strategy is updated annually.

In response to the Long Term Financial Strategy, a medium-term strategic resource plan is included within the Council Plan to provide a framework for Council's financial, physical and human resources over the next four years. This Strategic Resource Plan outlines the allocation of resources to work on the key directions and priority actions outlined in the Council Plan.

From the Strategic Resource Plan evolves an Annual Budget that provides specific targets in relation to financial resources for the next financial year and a framework to ensure strategies and commitments are transformed into 'on the ground' results. The Annual Budget specifies goals against which Council can measure its progress and performance whilst also articulating sources of revenue and how that revenue is spent in delivering services to the community.

## 1.2 Our Purpose

### *Our Community Vision*

Maroondah will be a vibrant and diverse city with a healthy and active community, living in green and leafy neighbourhoods which are connected to thriving and accessible activity centres contributing to a prosperous economy within a safe, inclusive and sustainable environment.

### *Organisational Vision*

We will foster a prosperous, healthy and sustainable community.

### *Our Mission*

### *Our Workplace Values*

- We are **ACCOUNTABLE** to each other and our community

- We collaborate in an adaptable and **SUPPORTIVE** workplace
- We **PERFORM** at our best
- We are open, honest, **INCLUSIVE** and act with integrity
- We ensure every voice is heard, valued and **RESPECTED**
- We are brave, bold and achieve **EXCELLENCE**

### 1.3 Community Outcome Areas (Strategic Objectives)

The Council Plan articulates eight community outcome areas (strategic objectives), each with a set of four-year key directions (strategies), annual priority actions, Council Plan indicators (strategic indicators) and supporting strategies and plans. The priority actions (major initiatives) work towards the achievement of the key directions, and ultimately the outcome areas and vision outlined in Maroondah 2040.

Council delivers services and initiatives under 14 major service areas. Each contributes to the achievement of the future outcome areas as set out in Maroondah 2040 and Council Plan. The Annual Budget converts these services and initiatives into financial terms to ensure that there are sufficient resources for their achievement. The following table lists the eight community outcome areas as described in the Council Plan.

Outcome Area	Vision Statements
1. <i>A safe, healthy and active community</i>	In 2040, Maroondah is a safe, healthy and active community with local opportunities provided for people of all ages and abilities to have high levels of social, emotional and physical wellbeing.
2. <i>A prosperous and learning community</i>	In 2040, Maroondah is a thriving centre of economic activity and opportunity within the eastern region where the sustainability and growth of local businesses is supported. All community members, groups, education providers and local businesses have access to a wide range of quality learning resources and facilities.
k3. <i>A vibrant and culturally rich community</i>	In 2040, Maroondah is a creative cosmopolitan community recognised for its celebration and promotion of arts and culture. There are a broad range of engaging entertainment options, diverse cultural activities and the creation and display of contemporary and traditional forms of art.
4. <i>A clean, green and sustainable community</i>	In 2040, Maroondah is a leafy green community with high levels of waste diversion and sustainable approaches to infrastructure development, urban design and management of natural resources. Our community is resilient and has the knowledge, capacity and resources to make sustainable lifestyle choices.
5. <i>An accessible and connected community</i>	In 2040, Maroondah is an accessible community for all ages and abilities with walkable neighbourhoods, effective on and off-road transport networks, and access to a range of sustainable transport options.
6. <i>An attractive, thriving and well built community</i>	In 2040, Maroondah is a leafy green community with high quality urban form and infrastructure that meets the needs and aspirations of all ages and abilities. A diverse range of housing options are available and thriving activity centres provide a broad range of facilities and services to meet community needs. The character of local neighbourhoods continues to be maintained while also accommodating population growth.
7. <i>An inclusive and diverse community</i>	In 2040, Maroondah is an inclusive community where social connections are strong across generations and diversity is embraced and celebrated.
8. <i>A well governed and empowered community</i>	In 2040, Maroondah is an effectively empowered community that is actively engaged in Council decision making through processes that ensure their voice is heard and considered. Council provides strong and responsive leadership, ensures transparent processes and works with the community to advocate and champion their needs.

## 2. Services and initiatives and service performance indicators

Working towards the Vision outlined in *Maroondah 2040* and the achievement of the future outcomes (strategic objectives), we will continue to plan, deliver and improve high quality, cost effective, accessible and responsive services. The services, initiatives, major initiatives (priority actions) and service performance indicators for each service area are described in the following section.

### 3. Summary of financial position

This section considers the long term financial projections of the Council. The Act and Regulations require a Strategic Resource Plan to be prepared covering both financial and non-financial resources, and including financial performance indicators for at least the next four financial years to support the Council Plan. Council prepares the long term financial strategy for the next ten years from which the financial statements are derived.

Key budget information is provided below about the rate and charges; comprehensive result; cash and investments; capital expenditure; financial position (working capital) and financial sustainability of the Council.

Nearly all these measures have been impacted in some way by the impacts of COVID19 and Council has had to review its operations and make the appropriate changes, in order to position the organisation in the best position possible to continue delivering community services with as little impacts as possible.

#### 3.1 Total Rates & Charges

A = Actual F = Forecast B = Budget LTFS = Long Term Financial Strategy estimates

Source: Section 5

It is proposed that rates will increase by 2.0% (as applied to the Base Average Property Rate in accordance with ESC formulae) and waste charges to increase by 6.4% in 2020/21 year in line with contract obligations (accommodating the increased costs of recycling processing). Total rates and charges of \$96.24 million, which includes \$0.67 million generated from supplementary rates. This rate increase is in line with Council's rating strategy.

Future years (2021/22 to 2022/23) rates are estimated to increase by 2.0% and 2023/24 is estimated to increase by 2.5%. (as applied to the Base Average Property Rate in accordance with ESC formulae) and waste charges are estimated to increase by 6.4% in 2020/21, 10.0% in 2021/22, 10.1% in 2022/23 and by 9.0% in 2023/24. These increases proposed in the waste charge is to anticipate the State requirements of the circular economy and ensuring Council meets the required outcomes of the State Government's Policy Paper 'Transforming Recycling in Victoria'.

### 3.2 Comprehensive result

Source: Section 5

The expected comprehensive result for the 2020/21 year is a surplus of \$40.15 million, which is an increase of \$30.68 million over 2019/20 Forecast Budget. It is anticipated that a surplus result will be achieved throughout the strategy period. (The forecast comprehensive result for the 2019/20 year is a surplus of \$9.47 million which is better than the adopted budget provision by \$4.86 million due to the inclusion of carried forward grants, unbudgeted new grants, and savings achieved). However, the comprehensive result is not the only measure that identifies Council’s position in being able to continue being financially sustainable and delivering services, given that it comprises of income of a capital nature and grants. Hence, Council continues to measure the underlying result as well as the comprehensive result, when considering particular decisions.

### 3.3 Cash and investments

Source: Section 5

Cash and investments are expected to decrease by \$8.54 million during the year to \$33.1 million (Cash and cash equivalents \$9.67 million and Financial Assets \$23.5 million) as at 30 June 2021. The decrease in cash and investments is in line with Council's Long Term Financial Strategy. Cash and investments are forecast to be \$41.64 million as at 30 June 2020. Notional provision has been made for potential Defined Benefits Superannuation call should international equity markets fall, as well as provision of a cash backed reserve for new major capital projects as yet undefined. Especially with the impacts of COVID19, this is more of consideration to be made. Council cash generally, as a result of COVID19 has been impacted by over \$10 million over the 2019/20 and the budgeted year 2020/21.

### 3.4 Capital expenditure

Source: Section 5

The capital works program for the 2020/21 year is expected to be \$85.47 million of which \$26.56 million will come from external grants, contributions of \$0.2 million and \$20.65 million will be funded by sale of assets and the balance \$38.06 million internally through general rates and cash holdings. The priorities for the capital expenditure program have been established through a rigorous process of consultation that has enabled Council to assess community needs and develop sound business cases for each project.

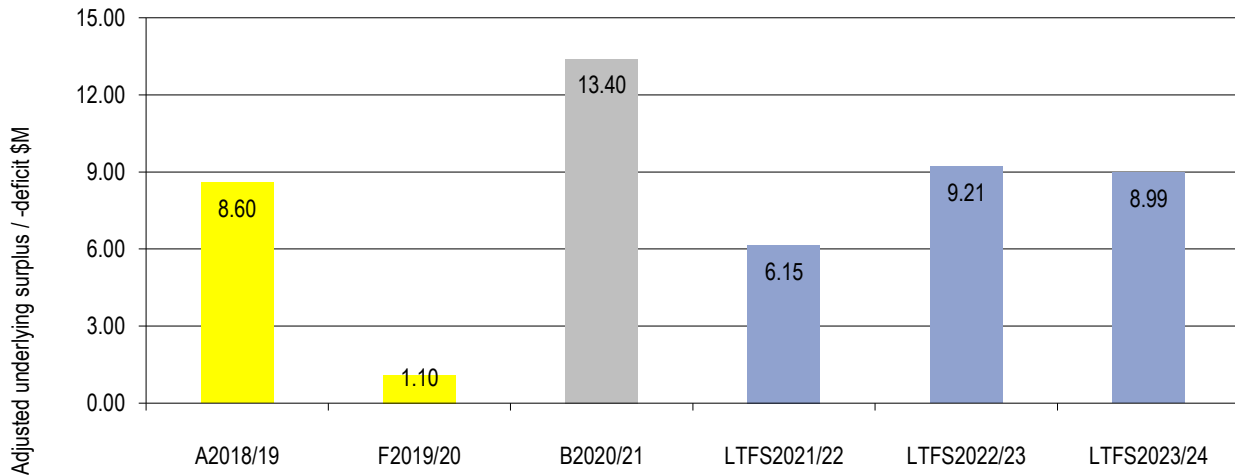

### 3.5 Financial Position (Working Capital)

Source: Section 5

The working capital ratio calculated as Current Assets divided by Current Liabilities is a key indicator to assess Council’s ability to meet current commitments. The expected working capital ratio for 2020/21 is 1.13 which means that Council can meet its short term obligations and has sufficient cash or operating liquidity remaining to meet fluctuating cash levels during the year.

### 3.6 Financial Sustainability

Source: Section 5

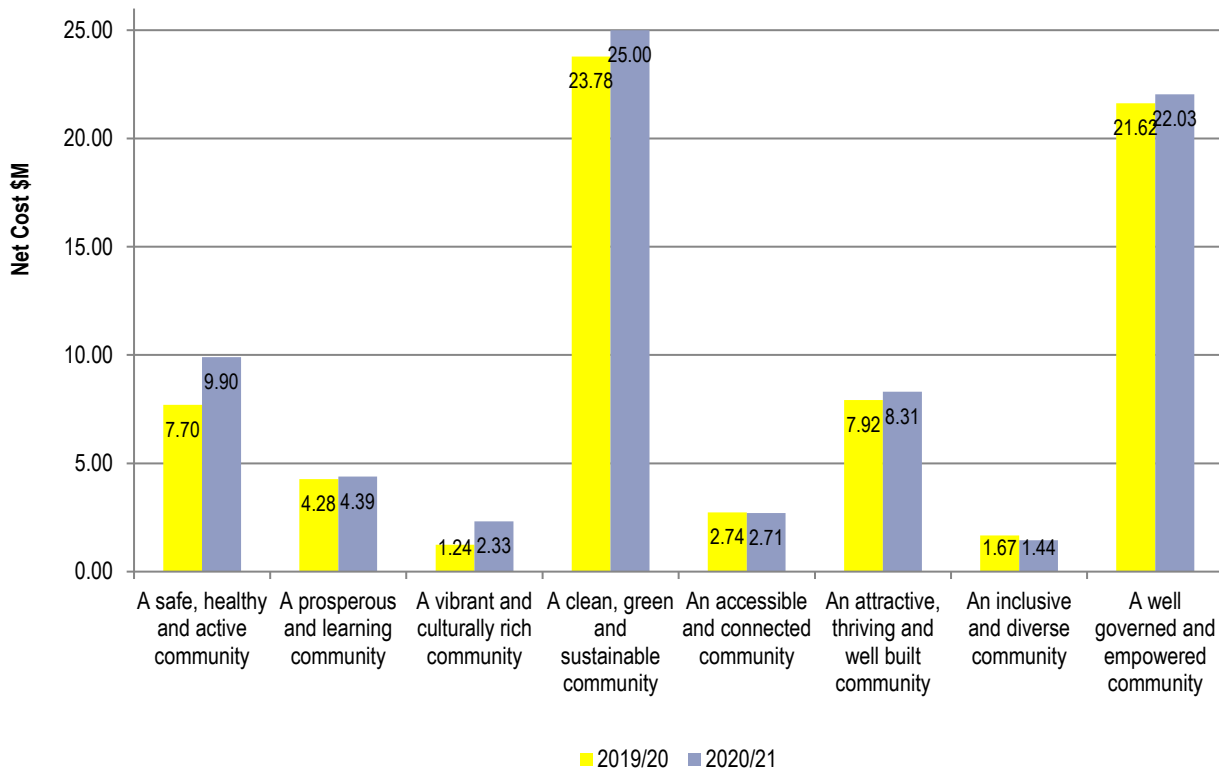

A Long Term Financial Strategy for the years 2020/21 to 2029/30 has been developed to assist Council in adopting a budget within a longer term prudent financial framework. The key objective of the strategy is financial sustainability in the medium to longer term, while still achieving Council's future outcome areas (strategic objectives) as specified in the Council Plan. The adjusted surplus result, which is a measure of financial sustainability, portrays positive outcomes in terms of net surplus comprehensive results for the entire ten-year period outlook (2020/21 to 2029/30). This can be achieved after absorbing the impact of borrowing and the graduated increase in the superannuation guarantee by the Federal Government. Notional provision has been made for potential Defined Benefits Superannuation call should international equity markets fall, as well as provision of a cash backed general reserve for new major capital projects as yet undefined.

Further indicators of the long term financial sustainability of Councils are the financial sustainability risk indicators as defined by Victorian Auditor General's Office (VAGO). Council is in a sound position financially with all indicators showing results within acceptable low to medium risk levels. The following table show these indicators over the ten-year period, shading green for low risk and yellow for medium risk.

Indicator	Measures	Forecast	Budget	Strategic Resource Plan				Long Term Financial Plan				
		Actual		Projections								
		2019/20	2020/21	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30

Renewal gap ratio	> 1.0%	1.3	<b>1.3</b>	1.6	1.1	1.2	1.2	1.0	1.1	1.1	1.1	1.0

The ratios are benchmarked against the VAGO indicators and even though the medium (yellow) level risks can be identified in the table, those levels as noted above are still at acceptable levels, given the impacts that COVID-19 has had on some of the ratios. So although the impact of COVID-19 has been significant, Council has still been able to maintain levels of risk in low and medium risk ratings once benchmarked against the VAGO measure.

### 3.7 Strategic objectives

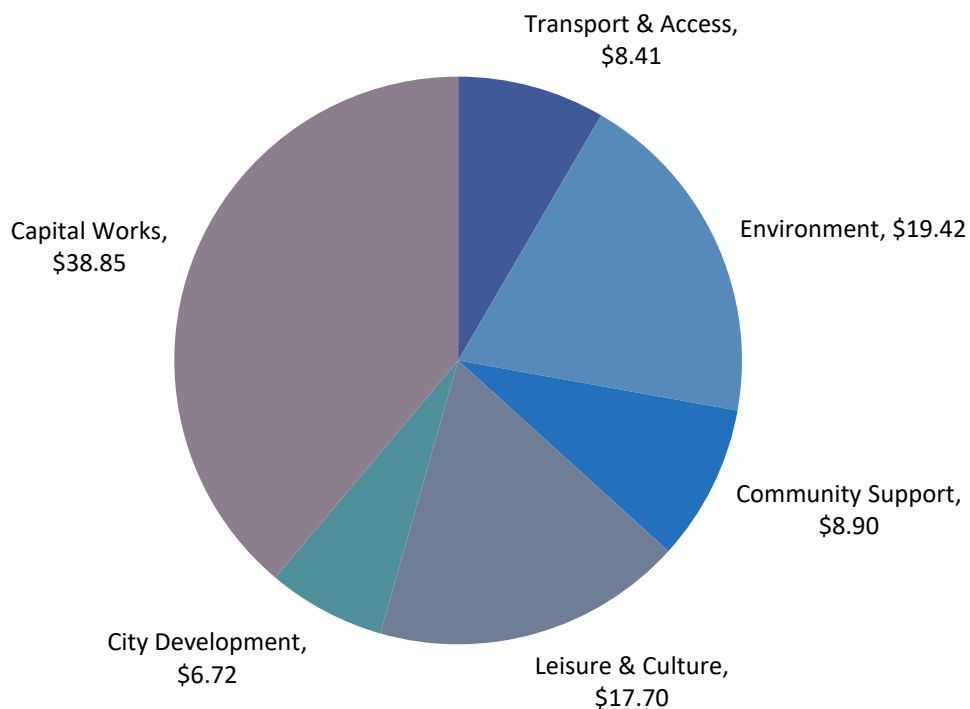

Source: Section 2

The Annual Budget includes a range of services and initiatives to be funded that will contribute to achieving the strategic objectives specified in the Council Plan. The above graph shows the level of funding allocated in the budget to achieve the strategic objectives as set out in the Council Plan for the 2020/21 year.

### 3.8 Council net expenditure allocations per \$100

The above chart provides an indication of how Council allocates its expenditure across the main services that it delivers. It shows how much is allocated to each service for every \$100 that Council spends.

This budget has been developed through a rigorous process of consultation and review and management endorses it as financially responsible. More detailed budget information is available throughout this document.

## 4. Budget influences

This section sets out the key budget influences arising from the internal and external environment within which the Council operates.

### 4.1 Budget implications

In framing the 2020/21 Budget Council has not only focussed on its key directions (strategies) and priority actions (major initiatives and initiatives) as contained in the Council Plan but has also accommodated significant external influences on its planned levels of revenue and expenditure. In particular, Council operates in a highly regulated environment and decisions by other levels of government and the private sector can have major impacts locally.

Whilst such influences are outside the control of Council, others arise as a result of decisions taken and policies adopted in response to community priorities, the drive for continuous improvement, innovation and the requirement for ongoing sound financial management. The major influences are listed on the next few pages.

Notwithstanding their effect, Council's Budget will deliver outcomes that:

- Provide for the ongoing maintenance of its wide range of quality services to the community;
- Build on its existing firm financial base to continue its strategy to improve its long term financial viability;
- Strike an appropriate balance between today's and future generations in respect of the funding of its operations and the development and maintenance of its long term assets; and
- Support an organisational and administrative framework that will assist in ensuring the provision of continued good governance.

### 4.2 External Influences

In preparing the 2020/21 budget, a number of external influences have been taken into consideration, because they will impact significantly on the services delivered by Council in the budget period when compared to the 2019/20 budget. These include:

- The Victorian State Government cap on the average property rate increase for 2020/21 has been set at 2.0% (2019/20 2.5%);
- Consumer Price Index – Melbourne All Groups (CPI) increases on goods and services of 2.0% through the year to the December quarter 2019 (ABS). State-wide CPI is forecast to be 2.25% for the 2020/21 year (Victorian Budget Papers 2019/20);
- The Victorian Wage Price index is projected to be 3.25% in 2020/21 increasing to 3.5% in the subsequent two years (Victorian Budget papers 2019/20);
- 2020/21 is a Council general election year with a net cost of \$0.39 million;
- Significant loss of revenue and overall impacts on financial position directly as a result of COVID19 including funding the renewal of infrastructure and community assets in a COVID19 environment;
- Over the last 30 years, recycling has been considered a critical service experienced by all and one that should be an expected service. As documented in the past two years, the recycling industry has been through some challenging moments and events that are disrupters on a global scale. These challenging events are still foreseeable into the future, however, Maroondah will be working towards a pathway that results in an efficient and resilient recycling system. Maroondah will continue to work closely with the State and Federal Governments to make inroads in the recycling sector. On the 6 March 2020, the State Government issued a paper and Policy to Transform Recycling in Victoria. It is

a circular economy policy with a 10 year action plan. The State Government will look to invest more than \$300 million to help transform the recycling sector and reduce waste. Maroondah will look to align its 10 year waste strategy, with the State Government Policy and pending funding announcements, will look to undertake such initiatives. Additionally, Maroondah has also had to manage its recycling processing during times of great uncertainty, however, allthesame, ensure recycling lives strong in the municipality. To ensure waste services and in particular recycling can continue, the charge for 2020/21, incorporating kerbside collection, green waste and recycling, will increase by just over 6% from the 2019/20 level. This increase in price, assists the municipality in maintaining its contractual relationship with its recycling contractor and ensure a reliable and environmentally friendly waste processing service is delivered;

- An decrease of \$0.19 million in the Federal Government Funding Assistance Grants funding compared to the prior year;
- The Fire Services Property Levy will continue to be collected by Council on behalf of the State Government with the introduction of the Fire Services Levy Act 2012 which is not included in Council's budget;
- An overall increase of \$18.78 million in total capital grants to be received in 2020/21 as specific funding for Multilevel Carpark Development Program \$23.15 million, Dorset Multipurpose Pavilion redevelopment \$2.0 million, Ainslie Multipurpose Pavilion redevelopment \$0.5 million and Springfield Sporting Pavilion redevelopment is anticipated. An decrease in the Roads to Recovery program \$0.18 million is also anticipated; and
- Public Open Space contributions are forecast to decrease to \$3.1 million compared with 2019/20 levels of \$3.4 million.

#### 4.3 Internal Influences

As well as external influences, there are also a number of internal influences which are expected to have a significant impact on the 2020/21 budget. These matters and their financial impact when compared to the 2019/20 budget are set out below:

- Depreciation is a major influence on the budget as it appears as a cost against the Comprehensive Income Statement. Depreciation for 2020/21 is \$24.4 million. Council must ensure its capital renewal program at minimum keeps pace with this figure to ensure adequate maintenance of Council's \$1.92 billion infrastructure;
- The inclusion of 65 Council Plan Priority Actions (Major initiatives and initiatives) that will be undertaken by Council in 2020/21 that will contribute to the achievement of preferred community outcomes outlined in Maroondah 2040: *Our future together*. Some of the initiatives are included below, for a full list of all initiatives refer to Section 2:
  - Design and construct multi-level commuter carparks in Croydon; Ringwood; Heathmont; and Heatherdale station;
  - Undertake a strategic review of shopping centres in Maroondah and develop a Community Shopping Centre Strategy;
  - Design and construct sporting / multipurpose pavilion redevelopments at HE Parker Reserve, Silcock Reserve, Proclamation Park, Springfield Park and Ainslie Park;
  - Establish a regional cricket hub at Jubilee Park sporting precinct;

- Complete the Lincoln Road upgrade, east of Dorset Road, Croydon;
- Implement the Greening the Greyfields project in partnership with stakeholders to facilitate a sustainable approach to urban redevelopment in identified residential precincts; and
- Undertake the staged redevelopment of the Croydon Community Precinct.

#### 4.4 Budget Principles

In response to these influences, guidelines were prepared and distributed to all Council employees with budget responsibilities. The guidelines set out the key budget principles upon which the employees prepare their budgets.

The principles included:

- The outcomes of Councils' Long Term Financial Strategy will drive the 2020/21 budget process. The primary direction for the 2020/21 Budget is to ensure Council's continued long term financial sustainability and that the requirements of the State Government in relation to Rate Capping are met;
- Service levels to be maintained at 2019/20 levels with the aim to use fewer resources with an emphasis on innovation, productivity and efficiency enhancements;
- Grants to be based on confirmed funding levels;
- New initiatives or new employee proposals which are not cost neutral to be justified through a business case;
- Existing fees and charges to be increased at a minimum of the Rates & Charges % increase or market levels for unit costs and volume;
- New revenue sources such as partnerships and shared services to be identified where possible;
- Salaries and wages to be increased in line with estimated Enterprise Bargaining outcomes; and
- Operating revenue and expenses arising from completed 2019/20 capital projects to be included.

#### 4.5 Legislative requirements

Under the Local Government Act 1989 (the Act), Council is required to prepare and adopt an annual budget for each financial year. The budget is required to include certain information about the rates and charges that Council intends to levy as well as a range of other information required by the Local Government (Planning and Reporting) Regulations 2014 (the Regulations) which support the Act. Refer appendix B.

The 2020/21 budget is for the year 1 July 2020 to 30 June 2021 and is prepared in accordance with the Act and Regulations. The budget includes Budgeted Financial Statements being a budgeted Comprehensive Income Statement; Balance Sheet; Statement of Changes in Equity; Cash Flows; and Capital Works and a Statement of Human Resources. These statements have been prepared for the year ended 30 June 2021 in accordance with the Act and Regulations. The budget information for the years 2020/21 to 2023/24 have been extracted from the Strategic Resource Plan. It also includes detailed information about the rates and charges to be levied, the capital works program to be undertaken and other financial information, which Council requires to make an informed decision about the adoption of the budget.

## 5. Financial Statements

This section presents information regarding the Budgeted Financial Statements. The budget information for the years 2020/21 to 2023/24 has been extracted from the Strategic Resource Plan. A Statement of Human Resources is also included for the years 2020/21 to 2023/24.

At the end of each financial year Council is required to report back to the community a comparison of actual financial results against these Budgeted Financial Statements and provide an explanation of significant variances. The Financial Statements together with the Performance Statement provide a clear, concise and understandable report of Council's activities for the year from both a financial and non-financial perspective, particularly for those users who do not have a financial background.

This section includes the following financial statements prepared in accordance with the *Local Government Act 1989 and the Local Government (Planning and Reporting) Regulations 2014*:

## 6. Notes to the financial statements

This section presents detailed information on material components of the financial statements.

### 6.1 Comprehensive Income Statement

#### 6.1.1 Rates and charges

Rates and charges are required by the Act and the Regulations to be disclosed in Council's annual budget.

In developing the Strategic Resource Plan rates and charges were identified as an important source of revenue, accounting for 59.3% of the total revenue received by Council annually. Planning for future rate increases has therefore been an important component of the Strategic Resource Planning process. The State Government have introduced the *Fair Go Rates System (FGRS)* which sets out the maximum amount councils may increase rates in a year. For 2020/21 the FGRS cap has been set at 2.0%. The cap applies to general rates and is calculated on the basis of council's base average property rate. The formulae provided by the Essential Services Commission (ESC) and agreed by the State Government is:

$$\frac{2019/20 \text{ Adopted General Rate Income} + 2019/20 \text{ Annualised Supplementary Rate Income}}{\text{No. of Assessments 2019/20}}$$

= Base Average Rate x 2.0%  
= maximum allowable Capped Average Rate

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the Maroondah community.

In order to achieve the levels set out in the Strategic Resources Plan which maintains services and service levels and a strong capital expenditure program, the average general property rate will increase by 2.0% in line with the rate cap formulae and the waste collection charges will increase by 6.4%. This will raise total rates and charges for 2020/21 of \$96.24 million, which includes \$0.67 million generated from supplementary rates.

6.1.1(a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

6.1.1(k) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations (2020/21: estimated \$0.67 million and 2019/20: \$0.70 million)
- The variation of returned levels of value (e.g. valuation appeals)

6.1.1(n) Differential rates

**Rates to be levied**

The rate and amount of rates payable in relation to land in each category of differential are:

- A general rate of 0.206408% for all rateable General Land:
- A general rate of 0.247690% for all rateable Commercial Land; and
- A general rate of 0.247690% for all rateable Industrial Land; and
- A general rate of 0.309612% for all rateable Vacant Land; and
- A general rate of 0.619224% for all rateable Derelict Land.

Each differential rate will be determined by multiplying the Capital Improved Value of each rateable land (categorised by the characteristics described below) by the relevant percentages indicated above.

Council considers that each differential rate will contribute to the equitable and efficient carrying out of council functions. Details of the objectives of each differential rate, the types of classes of land, which are subject to each differential rate and the uses of each differential rate are set out below.

**General Land**

**Definitions/Characteristics:**

Any land which does not have the characteristics of Commercial, Industrial, Vacant or Derelict Land.

**Objective:**

To ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including:

1. Construction and maintenance of public infrastructure; and
2. Development and provision of health & community services; and
3. Provision of general support services; and
4. Requirement to ensure that Council has adequate funding to undertake its strategic, statutory and service provision obligations.

**Types and Classes:**

Rateable land having the relevant characteristics described in the definition/characteristics

**Use and Level of Differential Rate:**

The differential rate will be used to fund some of those items of expenditure described in the Budget adopted by Council. The level of differential rate is the level which Council considers is necessary to achieve the objectives specified above.

**Geographic Location:**

Wherever located within the municipal district.

**Use of Land:**

Any use permitted under the relevant Planning Scheme.

**Planning Scheme Zoning:**

The zoning applicable to each rateable land within this category, as determined by consulting maps referred to in the relevant Planning Scheme.

**Types of Buildings:**

All buildings which are now constructed on the land or which are constructed prior to the expiry of the 2020/21 financial Year.

**Commercial Land****Definitions/Characteristics:**

Commercial Land is any land that does not have the characteristics of General, Industrial, Vacant or Derelict Land and which is used, designed or adapted to be used primarily for the sale of goods or services or other commercial purposes.

**Objective:**

To ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including:

1. Construction and maintenance of public infrastructure; and
2. Development and provision of health & community services; and
3. Provision of general support services; and
4. Enhancement of the economic viability of the commercial and industrial sector through targeted programs and projects; and
5. Encouragement of employment opportunities; and
6. Promotion of economic development; and
7. Requirement to ensure that streetscaping and promotional activity is complimentary to the achievement of commercial and industrial objectives.

<b>Total user fees</b>	<b>19,832</b>	<b>20,162</b>	<b>330</b>	<b>1.7%</b>

User fees relate mainly to the recovery of service delivery costs through the charging of fees to users of Council's services. These include use of Maroondah Leisure facilities: Aquahub; Aquanation; Croydon Memorial Pool; The Rings; Maroondah Nets; and the Ringwood and Croydon Golf courses, Karralyka Centre and other community facilities. In addition, the provision of services such as meals on wheels, family day care, occasional care and holiday programs are included in user fees.

User fees are projected to increase by 1.7% or \$0.3 million over 2019/20. The main areas contributing to the increase are Aquanation (\$0.79 million) and Aquahub (\$ 0.60 million) with a decrease anticipated at Karralyka (\$1.34 million). Council plans to increase user charges for all areas in line with expected inflationary trends and increase service use over the budget period to maintain parity between user charges and the costs of service delivery.

### 6.1.4.2 Grants - capital

Capital grants (recurrent and non-recurrent) include all monies received from State, Federal and community sources for the purposes of funding the capital works program. Overall the level of capital grants has increased by 241.1% or \$18.8 million compared to 2019/20 as specific funding in 2020/21 for large capital works projects including Multilevel Carpark Development will be received. Section 4.5 "Capital works program" includes a more detailed analysis of the grants and contributions expected to be received during the 2020/21 year. Significant movements in capital grant funding are summarised below:

Capital Grants	Forecast	Budget	Change

<b>Total employee costs</b>	<b>55,599</b>	<b>56,574</b>	<b>974</b>	<b>1.8%</b>

Employee costs include all labour related expenditure such as salaries and on-costs (employer superannuation, long service leave and workcover), allowances, overtime and annual leave loading etc.

Employee costs are forecast to increase by 1.8% or \$0.97 million compared to 2019/20. This increase relates mainly to a number of factors. Employee costs are aligned with the anticipated Enterprise Bargaining Agreement (EBA) outcomes for 2020/21, together with projected movement of employees within employment bands.

Materials and services are forecast to increase by 1.1% or \$0.55 million compared to 2019/20. Materials and services include the purchases of consumables, payments to contractors for the provision of services, utility costs, annual contribution for the provision of library services to the Eastern Regional Libraries (this has increased 2.0% for the 2020/21 year), contributions to community groups, software maintenance, insurances, advertising, motor vehicle running costs, fuel and registrations and other miscellaneous expenditure items. Utility costs relating to water, gas and electricity and are forecast to increase by 12.2% or \$0.46 million compared to 2019/20 resulting mainly from increased prices from suppliers. Contract payments are included as part of materials and services and are for the provision of services which have been tendered under section 186 of the Local Government Act including external contracts for services such as waste collection, road maintenance, street tree pruning etc. and are forecast

to increase by 2.7% or \$0.7 million compared to 2019/20. The increase in contractors is mainly due to tendered costs for Waste Management, Election and Operations.

### 6.1.9 Depreciation

	Forecast	Budget	Change

<b>Total depreciation</b>	<b>23,084</b>	<b>24,441</b>	<b>1,357</b>	<b>5.9%</b>

Depreciation is an accounting measure which attempts to allocate the value of an asset over its useful life for Council's property, plant and equipment including infrastructure assets such as roads and drains. The increase of 5.9% or \$1.36 million for 2020/21 is due mainly the full year effect of depreciation on the 2019/20 capital works program. Refer to section 6.5 'Capital works program' for a more detailed analysis of Council's capital works program for the 2020/21 year.

## 6.2 Balance Sheet

This section analyses the movements in assets, liabilities and equity between 2019/20 and 2020/21. It also considers a number of key performance indicators.

### 6.2.1 Current assets and non-current assets

Cash and cash equivalents include cash and investments such as cash held in the bank and in petty cash and the value of investments in deposits or other highly liquid investments with short term maturities of three months or less. These balances are projected to decrease by \$7.09 million during the year in line with the rise and fall of Council's operations.

Trade and other receivables are monies owed to Council by ratepayers and others. Minimal change is expected in the level of debtors in the budget.

Other financial assets include the value of investments held in deposits with a maturity of greater than three months at the time of initial investment. These balances are projected to decrease by \$1.45 million during the year in line with the rise and fall of Council's operations.

Other assets include items such as prepayments for expenses that Council has paid in advance of service delivery and inventories or stocks held for sale or consumption in Council's services. Minimal change is expected in the budget.

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all the land, buildings, roads, vehicles, equipment, etc. which has been built up by Council over many years. The net increase in this balance is attributable to the net result of the capital works program (\$85.5 million of new assets); depreciation of assets (\$24.4 million); and the sale of property, plant and equipment (\$20.8 million).

### 6.2.2 Interest-bearing liabilities

Interest-bearing liabilities are loans or borrowings of Council. Council borrowed \$24.2 million in 2014/15 and repayment of loan principal of \$0.234 million will be made during the year.

In 2014/15 Council constructed a new regional aquatic and leisure centre in Ringwood known as Aquanation. The facility was opened in August 2015, with borrowings to fund a portion of this project. The total cost was \$52.2 million, and has been funded by Federal and State Government grants to a total of \$13.0 million. The remaining funding came from a combination of loan borrowings by Council (\$24.2 million), budgeted capital expenditure, public open space contributions and cash reserves.

Council market tendered for the provision of the loan in August 2014 and the loan was drawdown in November 2014 with repayment of principal and interest over 15 years and at a fixed rate for the term of the loan of 4.91% interest per annum. The budget for 2020/21 provides for repayment of loan principal and interest per the agreed schedule.

The table below shows information on borrowings specifically required by the Regulations.

Amount proposed to be borrowed	-	-
Amount projected to be redeemed	(234)	<b>(1,570)</b>
Amount of borrowings as at 30 June	18,450	<b>16,880</b>

### 6.2.3 Current liabilities and non-current liabilities

'Trade and other payables' are those to whom Council owes money as at 30 June. These liabilities are budgeted to increase which is consistent with 2020/21 increased levels of expenditure on materials and services relating to capital projects.

Provisions include accrued long service leave, annual leave and time in lieu to employees. These employee entitlements are only expected to increase marginally in line with EBA outcomes.

### 6.2.3 Leases by category

As a result of the introduction of AASB 16 Leases, right-of-use assets and lease liabilities have been recognised as outlined in the table below.

	Forecast Actual 2019/20 \$	Budget 2020/21 \$
<b>Right-of-use assets</b>		
<b>Current Right-of-use assets</b>		
Plant and equipment	516	<b>501</b>
<b>Total Current Right-of-use assets</b>	516	<b>501</b>
<b>Non Current Right-of-use assets</b>		
Plant and equipment	762	<b>261</b>
<b>Total Non Current Right-of-use assets</b>	762	<b>261</b>
<b>Total right-of-use assets</b>	1,278	<b>762</b>
<b>Lease liabilities</b>		
<b>Current lease Liabilities</b>		
Plant and equipment	507	<b>511</b>
<b>Total current lease liabilities</b>	507	<b>511</b>
<b>Non-current lease liabilities</b>		
Plant and equipment	785	<b>274</b>
<b>Total non-current lease liabilities</b>	785	<b>274</b>
<b>Total lease liabilities</b>	1,292	<b>785</b>

Where the interest rate applicable to a lease is not expressed in the lease agreement, Council applies the average incremental borrowing rate in the calculation of lease liabilities. The current incremental borrowing rate is 3.5%.

### 6.2.4 Working capital

Working capital is the excess of current assets above current liabilities. This calculation recognises that although Council has current assets, some of those assets are already committed to the future settlement of liabilities in the following 12 months and are therefore not available for discretionary spending.

The expected working capital ratio for 2020/21 is 1.13:1 which means that Council can meet its short-term obligations and has sufficient cash or operating liquidity remaining to meet fluctuating cash levels during the year.

## 6.3 Statement of changes in Equity

### 6.3.1 Equity

Total equity always equals net assets and is made up of the following components:

- Asset revaluation reserve which represents the difference between the previously recorded value of assets and their current valuations.
- Accumulated surplus which is the value of all net assets less Reserves that have accumulated over time. The increase in accumulated surplus of \$40.15 million results directly from the surplus for the year.
- Council has introduced a cash backed general reserve to fund future capital projects and unexpected contingencies such as a call on unfunded Superannuation. The net movement in the reserve will be a decrease by \$2.75 million in 2020/21 which is mainly relating to Realm Extension.

## 6.4 Statement of Cash Flows

This section analyses the expected cash flows from the operating, investing and financing activities of Council for the 2020/21 year. Budgeting cash flows for Council is one of the key factors in setting the level of rates and providing a guide to the level of capital expenditure that can be sustained.

The analysis is based on three main categories of cash flows:

- **Operating activities** - Refers to the cash generated or used in the normal service delivery functions of Council. Cash remaining after paying for the provision of services to the community may be available for investment in capital works, or repayment of debt.
- **Investing activities** - Refers to cash generated or used in the enhancement or creation of infrastructure and other assets. These activities also include the acquisition and sale of other assets such as vehicles, property and equipment.
- **Financing activities** - Refers to cash generated or used in the financing of Council functions and include borrowings from financial institutions and the repayments of borrowings. These activities also include repayment of the principal component of loan repayments for the year.

### 6.4.1 Net cash flows provided by/ (used in) operating activities

The increase in cash inflows from operating activities of \$24.1 million is due mainly to the capital grants to be received in 2020/21 which are primarily one off in nature including the \$23.1 million for the Croydon, Heathmont and Ringwood Multi-level carparks and \$2.0 million for the Dorset Multipurpose Pavilion redevelopment. A \$4.0 million increase in rates and charges, \$4.5 million decrease in user fees, and a \$0.9 million increase in employee costs.

The net cash flows from operating activities does not equal the surplus (deficit) for the year as the expected revenues and expenses of the Council include non-cash items which have been excluded from the Cash Flow Statement. The budgeted operating result is reconciled to budgeted cash flows available from operating activities as set out in the following table.

	Forecast		
	Actual	Budget	Variance
	2019/20 \$'000	2020/21 \$'000	\$'000
<b>Surplus (deficit) for the year</b>	<b>9,482</b>	<b>40,157</b>	30,675
Depreciation	23,084	<b>24,441</b>	1,357
Net gain/(loss) on disposal of property, infrastructure, plant and equipment	(93)	<b>12,075</b>	12,168
Finance costs	(459)	<b>(861)</b>	(402)
Net movement in current assets and liabilities	3,021	<b>(16,654)</b>	(19,675)
<b>Cash flows available from operating activities</b>	<b>35,035</b>	<b>59,159</b>	<b>24,124</b>

#### 6.4.2 Net cash flows provided by/ (used in) investing activities

The increase in payments for investing activities represents an increase in capital works expenditure between 2019/20 and 2020/21.

#### 6.4.3 Net cash flows provided by/ (used in) financing activities

The payments for financing activities represents repayment of borrowings both principal and interest for the loan for Aquanation (refer 6.2.2).

#### 6.4.4 Cash and cash equivalents at end of the year

Overall, total cash and investments are forecast to increase by \$4.7 million to \$16.6 million as at 30 June 2021. This is consistent with Council's Long Term Financial Strategy.

#### 6.4.5 Restricted and unrestricted cash and investments

Cash and cash equivalents held by Council are restricted in part and not fully available for Council's operations. The budgeted balance sheet indicates that Council is estimating at 30 June 2021 it will have cash and investments of \$33.1 million, which are partly restricted as shown in the following table.

	Ref	Forecast		Variance
		Actual 2020 \$'000	Budget 2021 \$'000	
<b>Total cash and investments including financial assets</b>		<b>41,643</b>	<b>33,100</b>	<b>(8,544)</b>
Restricted cash and investments	6.4.5.1			
- Trust funds and deposits		(4,828)	<b>(4,828)</b>	0
- Unexpended grants and contributions		(2,500)	<b>(2,500)</b>	0
- Unexpended specific purpose investments other		(13,090)	<b>(7,183)</b>	5,907
- Cash backed reserve		(11,000)	<b>(8,250)</b>	2,750
<b>Unrestricted cash and investments</b>	6.4.5.2	<b>10,225</b>	<b>10,339</b>	<b>113</b>

##### 6.4.5.1 Restricted cash and investments

Council has cash and cash equivalents that are subject to restrictions, Council has restrictions in relation to unexpended specific purpose investments other which relate mainly to monies received by Council for Public Open Space and Waste; trust funds and deposits; unexpended grants and contributions and cash backed reserves.

##### 6.4.5.2 Unrestricted cash and investments

These funds are free of all specific Council commitments and represent funds available to meet daily cash flow requirements, unexpected short term needs and any budget commitments which will be expended in the following year such as grants and contributions. Council regards these funds as the minimum necessary to ensure that it can meet its commitments as and when they fall due without borrowing further funds.

This following section presents the four-year capital expenditure program for the period 2020/21 to 2023/24. Council has already made prior budget commitments to a number of projects to ensure timely completion consistent with expectations.

The capital projects are grouped by class and include detail of both Council and Other contributions to individual projects. Further detail is also provided on asset renewal, new assets, asset upgrade and asset expansion projects.

## 7. Financial performance indicators

The following table highlights Council's current and projected performance across a range of key financial performance indicators. These indicators provide a useful analysis of Council's financial position and performance and should be interpreted in the context of Council's future outcomes and priority actions.

o Forecasts that Council's financial performance/financial position indicator will be steady

- Forecasts deterioration in Council's financial performance/financial position indicator

#### Notes to indicators

**1 Adjusted underlying result** – An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. There is an improvement in financial performance expected over the period.

**2 Working capital** – The proportion of current liabilities represented by current assets. Working capital is forecast to decrease from 2019/20 to 2020/21. This trend is forecast to reduce slightly in later years however with the ratio remaining at a healthy level.

**3 Debt compared to rates** - Trend indicates Council's reducing reliance on debt against its annual rate revenue through redemption of long term debt.

**4 Asset renewal** - This percentage indicates the extent of Council's renewals against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets.

**5 Rates concentration** - Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates Council will have a steady reliance on rate revenue compared to all other revenue sources.

# Appendices

The contents of the appendices following are summarised below:

Appendix	Nature of information	Page
A	Budget process	75
B	Statutory disclosures	77
C	Fees and Charges	79

## Appendix A - Budget Process

The preparation of the budget begins with Council's employees preparing the annual budget in accordance with the Local Government Act 1989 (the Act) and Local Government (Planning and Reporting) Regulations 2014 (the Regulations) and submitting the "proposed" budget to Council for approval "in principle". Council is then required to give "public notice" that it intends to "adopt" the budget. It must give a minimum 28 days notice of its intention to adopt the proposed budget and make the budget available for inspection at its offices. A person is able to make a submission on any proposal contained in the budget and Council must consider any submission before adoption of the budget.

This section lists the budget processes to be undertaken in order to adopt the Budget in accordance with the Local Government Act 1989 (the Act) and Local Government (Planning and Reporting) Regulations 2014 (the Regulations).

Under the Act, Council is required to prepare and adopt an annual budget for each financial year. The budget is required to include certain information about the rates and charges that Council intends to levy as well as a range of other information required by the Regulations which support the Act.

The 2020/21 budget is for the year 1 July 2020 to 30 June 2021 and is prepared in accordance with the Act and Regulations. The budget includes financial statements being a Comprehensive Income Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows and Statement of Capital Works and Statement of Human Resources. These statements have been prepared for the year ending 30 June 2021 in accordance with the Act and Regulations, and consistent with the annual financial statements which are prepared in accordance with Australian Accounting Standards and the Local Government Model Accounts. The budget also includes information about the rates and charges to be levied, the capital works program to be undertaken, the human resources required, and other financial information Council requires in order to make an informed decision about the adoption of the budget.

A 'proposed' budget is prepared in accordance with the Act and submitted to Council in April for approval 'in principle'. Council is then required to give 'public notice' that it intends to 'adopt' the budget. It must give 28 days notice of its intention to adopt the proposed budget and make the budget available for inspection at its offices and on its web site. A person has a right to make a submission on any proposal contained in the budget and any submission must be considered before adoption of the budget by Council.

With the introduction of the State Governments Rate Capping legislation in 2015 Councils are now unable to determine the level of rate increase and instead must use a maximum rate increase determined by the Minister for Local Government which is announced in December for application in the following financial year.

If a Council wishes to seek a rate increase above the maximum allowable it must submit a rate variation submission to the Essential Services Commission (ESC). The Commission will endeavour to notify councils of its decision in respect of an application within two months of receipt of application. In many cases this will require Councils to undertake 'public notice' on two separate proposed budgets simultaneously, i.e. the Ministers maximum rate increase and the Council's required rate increase. The final step is for Council to adopt the budget after receiving and considering any submissions from interested parties. A copy of the budget is required to be submitted to the Minister within 28 days after adoption.

This 2020/21 Budget has been prepared in compliance with the Act and the Regulations that set out the required preparation process. Council is not seeking a rate increase above the maximum allowable by the ESC.

## **Community Consultation**

Section 129 of the Act provides that Council follows a public consultation process prior to formal Budget adoption. This commences with a public notice by Council announcing the preparation of the Proposed Budget. Copies of the Budget are made available on Council's website [www.maroondah.vic.gov.au](http://www.maroondah.vic.gov.au) and for inspection at Council's service centres and libraries and the public may obtain further information on the Budget content from Council Officers by appointment.

The public notice invites submissions to be made to Council under Section 223 of the Act. This Section also gives those making submissions the right to speak to their submission before a sub-committee of Council. The legislation also requires Council to formally respond to any submissions in writing and to provide reasons for such response.

## Appendix B - Statutory Disclosures

This appendix lists the items that must be included in Council's annual budget in order for it to comply with the requirements of the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014*.

Under Section 127 of the Local Government Act 1989, Council must prepare a budget for the financial year and ensure that the budget contains information as detailed in the Act and the Local Government (Planning and Reporting) Regulations 2014. The Regulations, supporting the Act also specify further information to be included in the Budget. The following tables provides where in this document information is available to the reader.
