

## Attachment 5: Suggested formatting, grammatical and mapping changes

The Interim Publish provided on 9 June 2023 includes many of the formatting, grammar and mapping updates previously suggested, however it would appear that the following is also appropriate:

- Clause 02.01: Italicise the words “Plan Melbourne”
- Clause 02.03-9: Remove the capital from “Medical” within the dot point.
- Clause 02.04: Replace the Transport Land Use Framework Plan with a copy that excludes the title (i.e. the version dated 15 May 2023) to avoid duplication of this text.
- Clause 11.03-1L: Please include maps with a higher resolution, as supplied.
- Clause 11.03-1L: The title for the Croydon Activity Centre Map and Croydon Activity Centre Land Use Map have been included twice. Please remove the duplication.
- Clause 11.03-1L: Please ensure that the title is located on the same page as the map in each case.
- Clause 15.01-2L Environmentally sustainable development: Page 8 of Ministerial Direction 75 would appear to indicate that the following headings should be italicised body text:
  - Energy performance
  - Integrated water management
  - Indoor environment quality
  - Transport
  - Waste management
  - Urban ecology
  - Residential
  - Non-residential
  - Mixed use
- Clause 15.01-2L Environmentally Sustainable Development: Council had previously requested an additional space above the wording “Consider as relevant the following tools...” to provide clarity that this text applies to all applications, not only those for mixed use development. We suggest that formatting could be used to provide this clarity. Alternatively, a relocation of the text or provision of a heading would be of assistance.
- Clause 15.01-2L Environmentally Sustainable Development: There is a typographical error in the commencement date.
- Clause 15.01-2L Industrial Design: It is suggested that the readability of this clause could be improved by altering the following text as marked:

Building heights in respect to side and rear site boundaries adjoining a residential zone, land used for a hospital, school or public open space or land in a Public Acquisition Overlay to be acquired for a hospital, school or public open space ~~not exceeding~~ should not exceed a height (H) defined by  $H = S^2$  (where S = distance from any side or rear property boundary).

~~Design landscaping with~~ Using species that are hardy and have low water requirements.

- Clause 15.01-5L: Page 8 of Ministerial Direction 75 would appear to indicate that the following headings should be italicised body text:
  - General
  - Site layout
  - Landscaping
  - Fencing and gates
  - Services
  - Neighbourhood Area 1 (Mullum Mullum Creek), Neighbourhood Area 2 (Loughnan’s Hill), and the following Neighbourhood Area headings
- Clause 15.01-5L: Under the site layout heading, replace “canopy trees;” with “canopy trees,”.
- Clause 17.03-1L: The following headings appear to be in the Heading 2 format rather than the Heading 4 format:
  - Policy application
  - Strategies
- Clause 18.01-1 EastLink environs: This clause should be numbered 18.01-1L.
